

REPORT OF THE COMMITTEE ON RULES

General Assembly 2024

July 12, 2024

The Committee on Rules was honoured to serve General Assembly 2024, ensuring that the business of Assembly was conducted according to our rules and procedures.

We would like to thank our Moderator and Vice-Moderators for the accessible and skillful way with which they fulfilled their roles. As well as for the appropriate amounts of levity with which they conducted business. We also express our thanks to the secretaries, Assembly committee members, and our National Ministry Centre administration, office staff, and all who have served Assembly.

The Committee on Rules also wishes to express appreciation to the delegates for their wholehearted and respectful participation in the debates.

The Committee on Rules advises Assembly that the Minutes of the 2024 General Assembly business sessions will be reviewed by the Committee on Rules for verification of accuracy, then referred to the Board of Directors for final approval, and that the legislation enacted by Assembly will be reviewed by the Committee on Rules for consistency with the General Operating Bylaw of the Corporation and policies, and then referred to the Administration for insertion in our documents.

The Committee on Rules would also like to highlight the need to schedule an appropriate amount of time for business in General Assembly 2026, particularly in light of the number of things that are now scheduled for report and review at that time.

Submitted with delight,

Andrew McGregor, Chair
Michael Gagnon, Vice-Chair
Michelle Dwyer, Secretary
